PORT CHESTER.

The funeral of Mrs. Maria F. Mills, wife of John F. Mills, was held yesterday in St. Peter's Protest-ant Episcopal Church, of which Mr. Mills is senior ant Episcopal Church, of which Mr. Mills is senior warden. The attendants included members of the Faithful Workers, the Woman's Hospital Association, and the Birthday Club, of which Mrs. Mills was a prominent member before her illness began. The Rev. Charles E. Bengler, rector of the church, conducted the service, and a quartet from New-York City sang the hymns. Among the visiting clergymen were the Rev. W. J. Magill, of Byram clergymen were the Rev. Dr. W. S. Coffey, of St. Paul's Church, East Chester, Mrs. Mills was the Paul's Church, East Chester, Mrs. Mills was the daughter of the late Mr. and Mrs. W. P. Abendroth. Burfal was in the family plot in Union Greenwood Cemetery, Rye.

#### MOUNT VERNON.

The body of a man about forty years old was found early yesterday morning near the railroad tracks, between this city and Bronxville, by a track tracks, between this city and Bronxville, by a track walker on the New-York and Harlem Railroad. Coroner Banning ordered the body removed to a morgue, where an autopsy was conducted by Dr. E. S. Newall. There were no bruises or marks of violence on the body, and the doctor is almost positive that the man died from an epileptic fit while walking near the railroad tracks. A receipt from R. J. Bellew, of Tuckahoe, made out to A. Bell and \$11.65 in money were found in the pockets. At the morgue the body was identified by Mr. Bellew as that of Andrew Bell, a painter. Bell left home on Tucsday, and as he did not return at night his fourteen year old daughter was sent out to look for him. The girl was almost heartbroken when she found his body at the morgue.

#### PEEKSKILL.

It is now generally believed that Jacob Cole's fall from the Washington Engine Company's building on Monday morning, as told in The Tribune of Tuesday, was not due to carelessness. It is now understood that he was hit with a brick hurled at him by Richard Holt, an English bricklayer who had been hired by Moses T. Cole to work on the same building. After the excitement was over Holt disappeared, leaving his tools. A warrant has been issued for his arrest by Justice Lynch, and Contractor Cole has been to Holt's alleged home in Fishkill, but he is not there. The police are looking for him.

#### YONKERS.

The Yonkers police investigation ordered some months ago by Mayor Sutherland was resumed yes-terday by the Commissioners. The hearing was on a charge made against Detective James Robinson of receiving a bribe of \$30 from J. Fred Hanselof receiving a bribe of \$30 from J. Fred Hanselmann, proprietor of the Square Hotel, for protection of gambling during the week of the Firemen's Convention. Hanselmann refused to answer any questions concerning the alleged bribe, under advice of his counsel, on the ground that it might incriminate him. Detective Robinson then denied ever having had any dealings with Hanselmann. No other witnesses were called. The Board, by a unanimous vote, exonerated Robinson from blame. The Commissioners then called Robinson, shook his hand and told him they never believed there was anything wrong against him. The Board then adjourned until next Wednesday, when other matters will be taken up, including the alleged discharge of gambler by Captain McLaughlin.

#### DOBBS FERRY.

Rock Lodge, the home of Mrs. Joseph Stiner, has been purchased by William F. Carroll, of New-York City. The place was bought by Joseph Stiner and occupied as his country home until he died, two years ago. The terms of the recent sale were not made known. Extensive improvements will be made by the purchaser.

#### WHITE PLAINS.

Mayor Edwin W. Fiske of Mount Vernon, the defeated Democratic candidate for County Treasurer, filed a certificate of his election expenses in the County Clerk's office yesterday, showing that he expended \$3,369. His contribution to the County Committee amounted to \$1,500. John C. Rockwell, elected School Commissioner on the Republican ticket in the 1st District, spent \$29.85. John H. Lee, defeated for School Commissioner in the 11d District by Miss Berbert, spent \$22.36.

The Board of Supervisors yesterday reappointed Count E. R. Stainach court interpreter. Count Stainach is eighty-two years old, and this makes his twenty-fifth consecutive year as interpreter.

The Woman's Christian Temperance Union of Westchester County will hold a convention in the First Presbyterian Church, this village, to-day, Miss H. A. #### YORKTOWN.

James W. Husted, counsel for the Croton Lake Improvement Company, whose property has been condemned for the Croton watershed protection, condemned for the Croton watershed pacetons, has prepared a claim of \$102,000 against the city of New-York, which will be filed with the Eighth Cornell Dam Appraisal Commission. The property consists of more than five hundred acres of land, and the company's president is Charles Francis and the company's preside Stone, a New-York lawyer.

#### WIFE MURDER AND SUICIDE,

A CONSUMPTIVE BELIEVED TO HAVE COM-MITTED A DOUBLE CRIME.

Henry Luben, twenty-nine years old, and his wife Mary, twenty-eight years old, were found dead in their rooms, No. 850 Third-ave., at 12:50 o'clock this morning. There is every reason to believe that the woman was murdered by her husband, and that he then killed himself. Both were shot through the They had not lived together for three months

The man was a consumptive, and because of ill health and for other reasons was unable to contribute much to the support of his wife. They separated by mutual agreement. She took her six-year-old son and went to live in the rooms at No. 850 Third-ave. Her husband went to live with his mother in East Houston-st. He called on his wife from time to time and she received him, despite repeated warnings from her relatives to have noth-

The child, Henry, came home from school at noon yesterday and found his father and mother together in the front room. His mother paid no attention to him, and the little fellow took such luncheen as he could find and went back to school. After school he could not get in and the door was faulty forced.

finally forced.

It is thought Luben in a state of depression called on his wife, and after having a conference with her, decided to kill her and then take his own life. He was possessed of the idea that his own death was inevitable from his disease. It is thought he awaited his chance while a train was passing, and shot his wife. She must have been standing near the sofa, and had just strength enough to fall over on it. He must have waited for the passing of a second train to take his own life. The weapon used was an American buildog, with five chambers.

The bodies were not disturbed pending the arrival of the Coroner.

#### ARCH SCULPTORS AT DINNER.

THE REFORM CLUB ENTERTAINS THE COMMIT-

THE OF THE NATIONAL SCULPTURE SOCIETY. The Reform Club gave a dinner last night for the Dewey Arch Committee of the National Sculpture Society. About fifty members and guests attended of the club, No. 233 Fifth-ave.

Wallace Macfarlane, president of the club, presided. At the head table with him were J. Q. A. Ward, president of the Sculpture Society; Charles F. Wellington Ruckstuhl, Karl Bitter, John De Witt Warner, Simon Sterne and Colonel W. C. Church, chairman of the Citizens' Committee to Perpetuate the Dewey Arch.

The dinner was served at 7 o'clock. Mr. Macfarlane made his address of welcome and then in-troduced John Q. A. Ward, who said he had heard so many flattering things that he felt no further improvement was necessary. He said the Sculpture Society could now "return to a condition of sensu ous decadence." When the laughter his remarks provoked was silenced Mr. Ward continued in a nore serious vein, and declared that when this Nation is called great among the nations art will not be the least of its factors.

Charles R. Lamb, Karl Bitter, F. W. Ruckstuhl and John De Witt Warner also made brief ad-

In introducing Colonel Church, Mr. Macfarlane said it is certain that the arch will be made permanent, and he hoped the same men who designed the present structure would be called upon to construct the permanent one. Colonel Church said his committee has received great encouragement, and he had little doubt of its ultimate success. He told of the organization of the committee and of the methods to be pursued to raise the necessary 1,099,099. The practical work of soliciting money, Colonel Church said, has not yet begun and yet \$15,000 has been subscribed.

E. Ellery Anderson, who is a member of Colonel Church's committee, said that when Mr. Lamb referred to the awakening of artistic desire in the municipality a dreadful vision arose before him of Richard Croker and the other Democritic leaders of the city in marble along the Boulevard, but the vision had disappeared when Mr. Lamb explained that he referred to the Dewey Arch. In introducing Colonel Church, Mr. Macfarlane

#### WOODRUFF TO LECTURE.

Albany, Nov. 15.—Lieutenant Governor Woodruff will lecture before the Albany Historical Society in the near future on "The Preservation of the State's Water Supply in Adirondack Preserve."

# Does Your Baking Powder Contain Alum?

Prof. Geo. F. Barker, M. D., University of Penn .: "All the constituents of alum remain (from alum baking powders) in the bread, and the alum itself is reproduced to all intents and purposes when the bread is dissolved by the gastric juice in the process of digestion. I regard the use of alum as highly injurious."

Dr. Alonzo Clark: "A substance (alum) which can derange the stomach should not be tolerated in baking powder."

Prof. W. G. Tucker, New York State Chemist: "I believe it (alum) to be decidedly injurious when used as a constituent of food articles."

Prof. S. W. Johnson, Yale College: "I regard their (alum and soluble alumina salts) introduction into baking powders as most dangerous to health."

In view of such testimony as this, every care must be exercised by the housewife to exclude the over and over condemned cheap, alum baking powders from the food.

> Baking powders made from cream of tartar, which is highly refined grape acid, are promotive of health, and more efficient. No other kind should be used in leavening food. Royal Baking Powder is the highest example of a pure cream of tartar powder.

NEW-ENGLAND COAL FAMINE.

Boston, Nov. 15.-The general activity of all New-England coal trade, and it is said there is a probability of a coal famine. Coal merchants here are striving their utmost to supply the demand, but are unable to do so. Especially is this the case in anthracite coal, and at Mystic, Salem, Newburyport and other places where there is generally from 1,000,000 to 2,000,000 tons of coal stored for immediate use the sheds are empty. The cause of the trouble is said to be twofold—the inability of the railroads to provide enough rolling stock and the strong demand from the manufacturing cities.

#### NO METEORS ON VIEW.

TIONS HERE-REPORTS FROM OTHER PLACES.

Clouds overspread so large a portion of the country on Wednesday morning that few Leonids were seen east of the Mississippi. At Cambridge, Mass. where on Tuesday morning 157 meteors were seen-fifty-eight of them Leonids—the sky was overcas yesterday. The same situation prevailed as far West as Chicago and the Yerkes Observatory up in Wisconsin. At the Naval Observatory in Washington, between 3 a. m. and daylight the sky was partially clear, and as many as ten Leonids were plotted on a chart there. Only one was as bright as a second magnitude star, though. Some meteors were also reported from Kansas. At Craleton College, Northfield, Minn., eighteen were observed between 5:35 a. m. and daylight. One is said to have been a particularly fine specimen, but the others were

The most interesting observations on Wednesday morning, so far as heard from, were made in Canada. At McGill University, Montreal, Professor Mc-Leod and his assistants photographed a considerable number of meteors, 156 of them belonging to the Leonid system. The precise hour of the greatest abundance is not reported.

In this city and the neighborhood the sky re-mained cloudy all day yesterday, and the wind and from an unpromising quarter, the northeast, But a little before midnight the wind shifted to the West, and the cloud sheet showed symptoms of breaking up. By I a. m. the situation had still fur-ther improved. But no meteors were observed up to that hour. that hour. This morning the clouds continued disappear, but up to 2:30 a. m. no meteors had

to disappear, but up to 2:39 a. m. no meteors had been observed.

None of the displays reported thus far this year equal that of last November, when only the advance guard of the Leonid swarm was expected. Much less do they approach in abundance the "shower" that had been hoped for—the fall of hundreds of bright meteors, and thousands of faint ones, within so short a period as an hour. Even after allowing for the bedimming effect of the strong moonlight this year, it does not seem probable that the maximum stage had been reached, up to Wednesday forenoon. The experts believed that the chief display would occur on either Tuesday or Wednesday night but they have planned themselves, and have advised amateurs also, to maintain a watch all through the week, unless their hopes were realized sooner. Hence, if no particularly fine spectacle is witnessed somewhere in this country to-day between midnight and dawn, it will be wise to continue the lookout for one or two more mornings.
